The above-named permit holder hereby agrees to comply with all City of Salamanca codes and ordinances as well as any Federal or New York State laws pertaining to excavations within the public right-of-way. Permits associated with plumbing, waterline, utilities, etc. into the owner's property will require an applicable permit for such in conjunction with the excavation permit. Permit holder shall at his own expense furnish, erect and maintain proper barricades, signs, flagging, etc., necessary to protect both pedestrian and vehicular traffic during the course of the work. Permit holder agrees to hold the City of Salamanca, its officers and employees harmless of any claims or actions that may arise during the performance of the specified work and to conform to all rules contained in the excavation ordinance. This permit may be revoked at any time for any reason by the Superintendent of Public Works or his duly authorized representative or the Code Enforcement Officer.

**RESTORATION OF PROJECT**

Maintenance of backfilling paved and unpaved streets and sidewalk excavations.

When backfilling the excavation of any permit location, the following steps are to be used: All fill material must be tamped and compacted in lifts of not more than six inches at one time. Persons to whom the permit is granted must be responsible to maintain a smooth and level surface of the excavation site for a period of (1) one year after the completed permit date. All sidewalk blocks and asphalt must be replaced with new materials as designed. (Concrete must be a minimum of a 3500 # mix, Sidewalk blocks must be a minimum of 4 1/2" thick, Sidewalk blocks crossing a driveway must be a minimum of 6 1/2" thick.)

**PROJECT MUST BE COMPLETED WITHIN 60 DAYS OF DATE OF PERMIT**

All work under any project shall be supervised by the Superintendent of Public Works or his duly authorized representative. Upon completion of the project, the Superintendent of Public Works or his duly authorized representative and/or Code Enforcement Officer shall inspect the premises and give his/her approval of the restoration. A permit may be required to return to the project area if additional restoration work is necessary to put the project area into the same condition it was in prior to the project. All final restoration work must be completed within one year of completion of the excavation project.

Applicant affirms they are the owner or an authorized agent for the proposed work and are authorized to perform it; that all workers are covered by required workers' compensation insurance; and that all work will comply with applicable state laws and local ordinances. Issuance of a permit does not constitute a determination by the City of Salamanca regarding ownership of the premises or any improvements.
